

Mogens Flensted-Jensen

## Papers on Pure Mathematics.

- [1] A note on desintegration, type and global type of von Neuman algebras. *Math. Scand.* 24 (1969), 232-238.
- [2] Paley-Wiener type theorems for a differential operator connected with symmetric spaces. *Arkiv för Matematik* 10 (1972), 143-162.
- [3] (with T.H. Koornwinder). The convolution structure for Jacobi function expansions. *Arkiv för Matematik* 11 (1973), 245-262.
- [4] Spherical functions on rank one symmetric spaces and generalizations. *Proceedings of symposia in pure mathematics*, vol. XXVI, (Amer. Math. Soc. 1973), 339-342.
- [5] (with D. Ragozin). Spherical functions are Fourier transforms of  $L^1$ -functions. *Ann. Sci. Éc. N. Sup.* 6 (1973), 457-458.
- [6] Spherical functions on a simply connected semisimple Lie group. *Amer. Journ. Math.* 99 (1977), 341-361.
- [7] Spherical functions on a simply connected semisimple Lie group, II. A Paley-Wiener theorem for the rank one case. *Math. Ann.* 228 (1977), 65-92.
- [8] Spherical functions and discrete series. *Lecture Notes in Mathematics* no. 466, (Springer-Verlag 1975), 65-78.
- [9] Spherical functions on a real semisimple Lie group. A method of reduction to the complex case. *Journ. Func. Anal.* 30 (1978), 106-146.
- [10] (with T.H. Koornwinder). Positive definite spherical functions on non-compact, rank one symmetric space. *Lecture Notes in Mathematics* no. 739, (Springer-Verlag 1979), 249-282.
- [11] (with T.H. Koornwinder). Jacobi functions: the addition formula and the positivity of the dual convolution structure. *Arkiv för Matematik* 17 (1979), 139-151.
- [12] On a fundamental series of representations related to an affine symmetric space. *Lecture notes in Mathematics* no. 728, (Springer-Verlag 1979), 77-96.
- [13] Non-commutative harmonic analysis. Doctoral dissertation, Faculty of Natural Sciences, University of Copenhagen 1980.
- [14] Discrete series for symmetric spaces. *Ann. of Math.* 111 (1980), 253-311.
- [15]  $K$ -finite joint eigenfunctions of  $U(\mathfrak{g})^K$  on a non-Riemannian semisimple symmetric space  $G/H$ . *Lecture notes in Mathematics* no. 880, (Springer-Verlag 1981), 91-101.

- [16] Harmonic analysis on semisimple symmetric spaces. A method of duality. Lecture notes, Special Year in Lie Group Representations, University of Maryland 1983. Lecture Notes in mathematics, no. 1077, (Springer-Verlag 1984), 166-209.
- [17] Harmonic analysis on nonRiemannian symmetric spaces. Proceedings from the 19<sup>th</sup> Nordic Congress of Mathematicians, Reykjavik, August 1984.
- [18] (with K. Okamoto). An explicit construction of the  $K$ -finite vectors in the discrete series for an isotropic semisimple symmetric space, Mém. Soc. Math. France, N. S., 15 (1984), 157-199
- [19] Analysis on non-Riemannian symmetric spaces. Monography. Regional CBMS-conference series. Amer. Math. Soc. 1986.
- [20] Classification of  $H$ -spherical  $(\mathfrak{g}, K)$ -modules, in "Open problems in analysis on homogeneous spaces and representations of Lie groups". Proceedings from Workshop in Katata, Japan, August 1986.
- [21] (with T. Oshima and H. Schlichtkrull). Boundedness of certain unitarizable Harish-Chandra modules, Adv. Stud. Pure Math. 14 (1988), 651-660.
- [22] (with P. Delorme). Towards a Paley-Wiener theorem for semisimple symmetric spaces. Acta Math. Vol. 167 (1991), 127-151.
- [23] A simple approach to  $D$ -modules. Proceedings of the conference "Symmetric Spaces and Representation of Real Lie Groups". Contemporary Math. 145 (1993), 229-235.
- [24] (with E.P. van den Ban and Henrik Schlichtkrull). Basic harmonic analysis on pseudo-Riemannian symmetric spaces. Proceedings of the Nato advanced workshop 'Noncompact Lie groups and their physical applications', San Antonio, Texas 1993. Editors E.A. Tanner and Raj Wilson, Nato ASI series, 1994.
- [25] (with E.P. van den Ban and Henrik Schlichtkrull). Harmonic Analysis on Semisimple Symmetric Spaces. A Survey of Some General Results. In "Representation Theory and Automorphic forms; An Instructional Conference at International Centre for Mathematical Sciences, Edinburgh, 1996". Proceedings of Symposia in Pure Mathematics Vol. 61 (Amer. Math. Soc. 1997), 191-217.

### **Other Papers and Reports:**

- [a] (with E. Sibbesen, C.E. Andersen and S. Andersen). Carry-over in long-term field experiments during cultivations. 1. A model for approximating soil movement in one horizontal dimension by repeated tillage. Expl. Agric. 21 (1985), 101-107.
- [b] (with Niels Keiding et al). Report from the committee on Research and education in the applications of mathematics. Proceedings from the conference "Mathematics in Danmark". Danish Mathematical Society, (1981), 321-387.

- [c] (with Charlotte Christensen og Anders P. Ravn) Jordbrugsforskningens data kan genbruges, Ugeskrift for Jordbrug 10 (1989), 147-151.
- [d] (with Iver Thysen and Mikkelsen, S.A.). Dina, Strategy and Plans for the periode 1995-1999. Dina Notat No. 25, 55 s. 1994.
- [e] Dina 1 September 1993 - 31 August 1994 : Status and Plans. Dina Notat No. 24, 101s., 1994.
- [f] (with Ulla Dindorp). Description of primary data from crop variety evaluation experiments using the SFD-format and examples from the ADDA-partners: Report to the ADDA-group (Draft-version). Dina Notat No. 34, 44pp, 1995.
- [g] (with Ulla Dindorp and Ravn, Anders P.). A Standard Format for Data Exchange-SFD. Proceedings from the 6th International Congress for Computer Technology in Agriculture (ICCTA '96). Wageningen, The Netherlands, June 16-19, 1996, side 368-373.
- [h] (with Poul Einer Hansen and Iver Thysen). Dina 1991-1999. A comprehensive report about Dinas activities. Dina 2000.
- [i] (with Bo Jellesmark Thorsen) Valuation and Optimal Exploitation of a Forest under Price Uncertainty and Catastrophic Risk. Preprint, February 2000.
- [j] (with Poul Einer Hansen) DinaNews and Annual reports 2000, 2001, 2002 and 2003.
